Innerlane

Beseech

I feel it move two steps behind
Moving fast into the night
Flashing lights keeps passing by
See the pain that's in their eyesA screaming child, what have I done?
See the cold has gripped their spines
Turn around, I'm not alone
Lost my faith I'm on my wayThing's you've said, thing's you've done
When someone else controls your mind
You'll get worse before the end
You cannot feel, you can just bleed
Cannot feel, can just bleedBleeding under cold street lights
People scream, they're all afraid
Blame myself is this my fault
A growing seed of evil deedsA sickness that has gone too far
Closing in the chase is on
Turning back is not my choice
Lost my faith, I'm on my wayThing's you've said, thing's you've done
When someone else controls your mind
You'll get worse before the end
You cannot feel, you can just bleed
Cannot feel, can just bleed
