

Did I Imagine You?

Dot Allison

When I close my eyes
I can see you reach out to me
In my deepest dream
I can hear you call out to me
Where in the world are you tonight?
Did I imagine you?
Did I imagine you?
Are you somebody real
That I can touch and feel?
Here in my dreams
I'm waitin' for you
Just take my hand
And I'll carry you through
Now and then it seems
I can hear you climb the stairs
On openin' the door
I realize, you're not there
Where in the world are you tonight?
Did I imagine you?
Did I imagine you?
Are you somebody real
That I can touch and feel?
Here in my dreams
I'm waitin' for you
Just take my hand
And I'll carry you through
Here in my dreams
I'm waitin' for you
Just take my hand
And I'll carry you through
