

Speakerphone

Kylie Minogue

Music make you lose control
Lights, mind, eyes, hearts Lights flashin, sound clashin
Minds blowin, body rockin
Eyes lockin, lips touchin
Hearts pumpin, pressure risin Breathtakin, rump shakin
Music makin, lose control
Play it on your speakerphone
Track repeat go on and on Drop your socks and grab your mini boom box
Do the pop lock, body rock, let the beat drop
Til your shell shocked, baby, what? Tell me what you got
Rock hard like a sinner block To your head bone, temple bone, through your jawbone
To your neck bone, collarbone, let it go on
To your backbone, moving on, through your hipbone
When you play it on your speakerphone, track repeat go on and on Lights flashin, sound clashin
Minds blowin, body rockin
Eyes lockin, lips touchin
Hearts pumpin, pressure risin Breathtakin, rump shakin
Music makin, lose control
Play it on your speakerphone With your friend or on your own
On the street or in your home
Fill the buzz and hum along
Play it on your speakerphone
Let the stars collide Stop your pockets goin' ring-a-ding-dong
Turn your thing on speakerphone, we can get it on
Set your mind on freaky mode, where you wanna go?
Feel the buzz grow, let it glow To your head bone, temple bone, through your jawbone
To your neck bone, collarbone, let it go on
To your backbone, moving on, through your hipbone
When you play it on your speakerphone, track repeat go on and on Lights flashin, sound clashin
Minds blowin, body rockin
Eyes lockin, lips touchin
Hearts pumpin, pressure risin Breathtakin, rump shakin
Music makin, lose control
Play it on your speakerphone With your friend or on your own
On the street or in your home
Feel the buzz and hum along
Play it on your speakerphone
Let the stars collide Drop your socks and grab your mini boom box
Box, box, box, box, box

Let the beat dropDrop your socks and grab your mini boom box
Do the pop lock, body rock, let the beat drop, drop
Drop, drop, drop, drop, drop, drop, drop, drop
Drop, drop, drop, drop, drop, drop, drop, dropDrop your socks and grab your mini boom box, box
Play it on your speakerphoneLights flashin, sound clashin
Mind blowin, body rockin
Eyes lockin, lips touchin
Hearts pumpin, pressure risinBreathtakin, rump shakin
Music makin, lose control
Play it on your speakerphone
Let the stars collide
