

Grand Illusion

Donna Summer

Oh, grand illusion like to fade away
Take my love and go out to play, oh yeah
It's no intrusion, it's like a rainy day
That can wash the clouds away of this pain inside Come on now, boy, put it on the line
Take some space just to ease your mind
And to think it through Come on now, boy, put it on the line
Take some space just to ease your mind
And to think it through Harmony, we need harmony
Find the melody that puts our hearts in tune
Harmony, we need harmony
Simple symphony that makes us feel brand new
Harmony
Harmony Oh, grand illusion like to fade away
Take my love and go out to play, oh yeah
It's no intrusion, it's like a rainy day
That can wash the clouds away of this pain inside Come on now, boy, put it on the line
Take some space just to ease your mind
And to think it through
