Smashing Pumpkins

I hear your winter
And I hear your rain
And I've failed your summer ways
And I feel no pain I hear what you want
And I feel that way
I hear what you want
And I feel that way I hear you fade away
And I hear you crawl
And I gave my life away
And I feel no pain And I feel no pain
And I feel your pain She's my lover, sweet
She's my angel
What I've recovered of me
I put into a box underneath my bed When you lie in your bed
And you lie to yourself
When you lie in your bed
And you lie to yourself
Lie, lie, lie, lie Bang, bang, you're dead
Hole in your head
Bang, bang, you're dead
Hole in your head Bang, bang, you're dead
Hole in your head
Bang, bang, you're dead
Hole in your head Somewhere over the rainbow
Way up high
Birds fly over the rainbow
Why, oh why can't I? I hear what you want
And I feel that way
I hear what you want
And I feel that way
