

# Underdose

## InMe

I don't know how to fit inside,  
All you do is try and leave me behind,  
I don't know what to do,  
Something is killing me.I don't how to turn you on,  
All you do is try and lead me on,  
I don't know what to do,  
Something here is telling me to kill you.[Chorus:]  
It's all gone wrong, it's all gone wrong,  
It's falling perfect fumes,  
It's all gone wrong, it's all gone wrong,  
It's broken.I don't know how to leave this life,  
All I have is maybe suicide,  
I don't know what to do,  
Something is killing me.I don't know how to reach the top,  
All you do is try and scrape me off,  
I don't know what to do,  
Something here is telling me to kill you.[Chorus]Never meant to hurt you, hurt you,  
Never meant to hurt you, hurt[Chorus]It's all gone wrong, it's all gone wrong,  
It's falling perfect fumes,  
It's all gone wrong, it's all gone wrong,  
And I can't lose such a life
