

Change

Black Stone Cherry

You promised
We believed you
The water's getting high
My God, I forgot you
Why must we choose and die
Yeah, yeah
Why must we choose and die

We are, we are
Waiting, waiting
We keep hearin' that a change is gonna come
It's been too long
If it's comin'
I wanna know where the change is coming from

Deep pockets
Bodies piled high
How can you sleep at night
My God, I forgot you
Why must we choose and die
Yeah, yeah
Why must we choose and die

We are, we are
Waiting, waiting
We keep hearin' that a change is gonna come
It's been too long
If it's comin'
I wanna know where the change is coming from

Make no move
It's dark
It's true
If you can
It's time
You do

We are, we are
Waiting, waiting
We are, we are

We're waiting for a change

We are, we are

Waiting, waiting

We keep hearin' that a change is gonna come

It's been too long

If it's comin'

I wanna know where the change is coming from

We're waiting for a change

We're waiting for a change
