

# Blown Out

## Evil Ebenezer

if your out there let me know  
cause i got nowhere to go  
and im all alone  
trying to find my way home  
nobody told my folks  
that i wont commen back  
thats a fact i made my pact  
with my pack  
and then i made my tracks

smokes foams across the county line  
i lost my legs out my mind  
nothen till i was ever in your place  
then i felt that i could be fine  
thats to be me  
yeah, yeah baby thats the evil I  
something real to find  
stand up and believe it  
baby come on reach for the sky  
keep searchen till the stars are left  
till the end where we first met  
till the farthest darkest corner of the galaxxyxyxyx  
times won Iâ€™ve lost caught up in the hard to handle  
friends gone family dropped caught up in the hard to channel

I go to bed every night with the fear that i might not wake up again, wake up again  
I go to bed every night with the fear that i might not wake up again, wake up again  
Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in  
Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in

I chilled up north on a ranch  
helped out in the summer  
Picked up hay bales  
sat up on the porch  
while the lightning storm  
slashed with the thunder  
coyotes conniving their grills are smiling

the sounds of the night  
i find it hypnotititizzzingiinggg  
My skin was itchy from the bug bites  
im that kid that the bugs like  
I'll be back around town about mid may  
donâ€™t worry what the kids say  
im on a different look this summer  
clean sweaters no mustard  
nope, well never been a clever machine  
Im more of a brute and not really in the scene  
names trashed, veins smashed, sleepen in the sand  
waves crash, pain doesnâ€™t have to last  
i just sit back and laugh  
Im lost with deceit? to my paradise.  
smashed up the highest cash out in your paradise?

I go to bed every night with the fear that i might not wake up again, wake up again  
I go to bed every night with the fear that i might not wake up again, wake up again  
Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in  
Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in

Iâ€™m straight up slipen sliden  
gripen n grinden  
yeah, unaware of the sounds  
took the stairs to the clouds  
no my mouth moves without  
Loves one thing that you canâ€™t live without  
and I am the other one, yeah, yeah

Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in  
Blown out roll it again smoken it hold it in and baby donâ€™t go with them you donâ€™t know what kinda trouble th  
in

Iâ€™m saddened i was the get away van  
I needed a get away plan  
the hop in the heavens  
yeah the angeles in the can  
My grandad with his stallion  
not really just a quarter horse  
My sister held me down

---
