Lungs

CHVRCHES

How long, til you
Leave it
You should know that
Weâ€™re alone this time
Keep your-
Self a secret
You should know that
I will sell you a future you donâ€™t want
Like I did last time
I wonâ€™t go slow
All the things you tell yourself
Offer no resolution

You know that
This will break us
But you push us
As far as we can go
Taking
Every chance to
Find solutions
That never make anyone happy
We are done this time
You donâ€™t owe me
Take a
Final took at me
Take it and drink it in

Breathe through me
Fill up your lungs with us
I will keep e-very-thing
You give me
Til the time
We let go

Breathe through me
Fill up your lungs with us
I will keep e-very-thing
You give me
Til the time

We let go

Keep me
In your eyeline
Keep believing
What you said before
I won't
Change direction
I will tell you
That everythingâ€™s moving too slowly
Just another lie
One more untruth
You wonâ€™t ever see through me
You will still drink it in

Breathe through me
Fill up your lungs with us
I will keep e-very-thing
You give me
Til the time
We let go

You know that
This will break us
But you push us
As far as we can go
Taking
Every chance to
Find solutions
That never make anyone happy
We are done this time
You donâ€™t owe me
Take a
Final took at me
Take it
