

# Love Is the Name of the Game

Vaniah Toloa

When i was young i heard my old man say  
Despite the colors, every human is the same  
Treat everybody like your own from the heart  
Cause love is the name of the game.  
It doesnâ€™t matter like The Rock always says,  
If they look different from you anyway  
Treat everybody like your own from the heart  
Cause love is the name of the game

Putting on the shoes of a slave  
Many people have to go through the pain  
As they were taken from their homes  
Their whisper to the children  
Everything is gonna be okay  
As they were taken from their homes  
Their whisper to the children  
Everything is gonna be okay

Chorus  
And they said,  
Love, love, love  
created in the image of the father  
I said, love, love, love  
No man says heâ€™s greater than the other  
You dont have to hate so let me hear you say,  
That love is the name of the game x4

As i learned about slavery in school  
We came to label every traitor as the fool  
How can people think that they can buy the poor  
Like they dont have families too  
And so i pray for all the wounds to be healed  
It is the reason for the hatred that we feel  
Lean on the father, creator of the world  
And forever weâ€™ll be smiling still  
Forgive and let the blessings come through  
Forgive so that our dreams may come true  
When you love your neighbour as you love yourself

Then the blessing in the song is you  
I say when you love your neighbour as you love yourself  
Then the blessing in the song is you

Back to Chorus

Now im older and i got things to say,  
Despite the colors every human is the same  
Treat everybody like your own from the heart  
Cause love is the name of the game  
I said treat everybody like your own from the heart  
Cause love is the name of the game

Back to chorus
