Up In Flames

Labrinth

[Labrinth]And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames, eh
And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames
(Lesson 1)
Cause you know we're gonna burn it down
Cause everybody in here wiling out
Ohoooo-oooo
Yeah ain't nobody walking out of here
Without their clothes on the wrong way round
So what you gonna do right... now?
(Party like a mother-motherfucker)
(We're goin')
Right to the top floor
(Now there's)
Smoke in the window
(And we're)
Turnin the heat up
(Till it's)
Burning the roof off
(Ha Haaa)
My club domination
No limitation
Talking about M-M-M-My Generation
It's about that time to take a u-turn my DJ
So without further ado won't you put the replay
[Devlin]Devlin, taken

(Don't Look Down)
Me and Lab in the lab
To mad, crack down, be a man
Make threats?
Yes, then we see 'em out

You don't really want DV about
I'm straight but I'm coming out
Now I'm running in got the running out
Anyone who thinks they can muck about
Must be on a hard job plucking out
(Come on-oooon, when the boys come out to play ahhh yeah ahh)
You better put your guards up, guards up
(Ahhh you best on your way)
(You certainly won't be coming to my house for tea)
So act like you don't know
Back on the on the track with a cold flow

Smack any track and the road knows
Its actual fact no Roald Dahl
I'm back to back with my solo's
An absolute no go Bozo
Both your personas and bars it was fake, it's impose in a photo
(Oh No)
[Labrinth]
It's about that time to take a u-turn my DJ
So without further ado won't you put the replay
And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames, eh
And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames
[Tinchy Stryder]Boss Lie Stryds
Fleet Gang
(Good Evening, Your Time Starts... Now)
Fuck did they think they was dealing with
Music is in my veins like I'm bleeding hits
Hold it to ransom kidnap this in the industry
I'm the Chosen Kid and oh it stinks
Aimless flows, I am the shit
We chance with risk, we live on the edge of cliffs
We're brave in the heart, they Jet Li no
We blaze it apart, blatant aim for the heart
Greedy taking your half, hold up Lab let me tell them
That we (burn it down, hold it down)
You see me run this

Where's the crown (Where's the crown)
Stone cold face don't deal with frowns
Chasing the dream and it come with pounds
I'm done I'm ghost for now
[Labrinth]Ahhhh Ahhhh Ahhh Ohhhh (x3)
It goes up in flames, yeah
Ohhh
And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames, eh
And it's all here for the taking, yeah
May the best man walk away, yes
To the strongest
To the bravest
When the roof blows up in flames
