

Cajun Song

Xavier (Abe Guthrie Band)

Well, she's leaving today, I do know so far away
I'm feeling so blue and it shows
In every single way
Once that girl, she was mine for such a short time
We used to spend every night, now all I do is cry
We'll say that you can't miss something that you've never had
So tell me why, why I could feel so bad
We'll say that you can't miss something that you've never had
So tell me why, why I could feel so bad
Oh, we used to walk down the path just like lovers do
She'd hold my hand and we'd laugh
Then I'd stare in her eyes, they were blue
Once that girl she was mine for such a short time
We used to spend every night, now all I do is cry
We'll say that you can't miss something that you've never had
So tell me why, why I could feel so bad
Why I could feel so bad, why I could feel so bad
