

Simple Things

Tamar Braxton

When I woke up this morning
I sing that to your face
So I made you some breakfast
Eggs, and some beacon on your plate 'Cause I wanna talk to you before you walk out the door
'Cause I ain't about to walk round here
And watch you stressing no more
Baby think about other times you saved me
Baby let me be here for you
Appreciate all you do
But not to the point of losing you
'Cause you work it, stressing, hustling, guessing
About how you gon' pay all these bills
But I gotta be honest
That I ain't even want here with you
'Cause I'm not everything
I don't want it to tell it to you baby
'Cause I don't really need
All the house, cars, clothes, rings
I don't need nothing else from you
But the simple things
The simple, simple things, baby You wanna take me to dinner
But look tired as hell
But we might as well stay home
'Cause we can't even enjoy ourselves
You ain't gotta buy me no gifts baby
Not even Channel
'Cause half of these chicks in Channel, baby
Be going up through the hell
Oh baby think about other times you saved me
Baby let me be here for you
Appreciate all you do
But not to the point of losing you
'Cause you work it, stressing, hustling, guessing
About how you gon' pay all these dam bills
But I gotta be honest
That I ain't even want here with you 'Cause I'm not everything
I don't want it to tell it to you baby
'Cause I don't really need
All the house, cars, clothes, rings

I don't need nothing else from you
But the simple things
The simple, simple things, baby
