Let Me Be The One

Plus One

Under the silver stars, anywhere you are
Near or far you are close to me
When you don't understand and when you think nobody can
I'll be the friend and the hope you needLet me be the one leading you through the night
Sharing the smiles and tears you cry
Let me be the one lovin' you when you're weak
For all of the strength you need, you can come to meWhen you're down and you feel so lonely
Turn around, you can come to me
When you're down, you know I will be the only
Come to meI will be by your side
When you wanna break down and cry
I'll make you promises
You can believeFor the kind of love you can trust
For escape from hopelessness, yeah
Don't you know that you can
Come to meLet me be the one leading you through the night
Sharing the smiles and tears you cry
Let me be the one lovin' you when you're weak
For all of the strength you need, you can come to meI believe beyond
The setting of the sun, yeah
At the end of the day
My love stays for you, my love staysLet me be the one leading you through the night
Sharing the smiles and tears you cry
Let me be the one lovin' you when you're weak
For all of the strength you need, you canLet me be the one leading you through the night
Sharing the smiles and tears you cry
Let me be the one lovin' you when you're weak
For all of the strength you need, you can come to meLet me be the one leading you through the night
Sharing the smiles and tears you cry
Let me be the one lovin' you when you're weak
