You've Still Got It

Alecia Nugent

Southern lights and how planes fly
Some things I'll never understand
Like me here again tonight
At your memories commandNext thing I'm fighting for this heart of mine
I just can't forget the night I lost you
It's still a mystery after all this time
Though I've tried, I just don't get it
You've still got itTurn the page, close the book
Put it on a shelf and let it be
That promise made was all it took
For you to make a lier out of meNext thing I'm fighting for this heart of mine
I just can't forget the night I lost you
It's still a mystery after all this time
Though I've tried, I just don't get it
You've still got it
