U Must Be

Gina Rene

When i'm with you
you know you make my days
so beautiful
with your different ways
you make me lighter
i'm movin with the wind
love you know what you got for me
i got for you too
we can't pretendgive me another chance to breathe in
you got all the things i need and
together we're just so complete
you must be the reason i'm alive
(repeat)it's all so new
yet so familiar
everytime i'm next to you
i feel somethin like forever
yes that's right
c'mon and talk to me
let some uh that sweet poetic love
fall over me..Give me another chance to breathe in
you got all the things i need and
together we're just so complete
you must be the reason i'm alive
(repeat)all this time i've been lookin for someone like you
i never really thought you existed
now i see my dreams are all comin true
i just want to stay right here with you...
(rap)
you say i'm like fresh air for the birth of your new eyes..i say you're like the sun bright enlightening my skies today.. We got together to create a new world
only a real man can understand the gift of this girl..bells are ringin cause what you're bringin has got me singin..now i can breathe in you're all i'm needin love is a breeze and spring is the season i'm feelin so alive inside and you must be the reason..
All this time i've been lookin for someone like you
i never really thought you existed
now i see my dreams are all comin true..i just want to stay ..right here with you..Give me another chance to breathe in
you got all the things i need and
together we'rejust so complete

you must be the reason i'm alive.....
