Between the Worlds

Caliban

Deeply hidden in the deepest wood
Black is the nightThe owls are singing between the worlds
The circle closes, the cycle of fire opens its doors
The guard between the shadows searches for fearPain shouts you down
Pain shouts you down
Pain shouts you downPain shouts you down
Pain shouts you down
Pain shouts you, ohPain shouts you down
Fire walk with me
Pain shouts you down
Fire walk with mePain shouts you down
Fire walk with me
Pain shouts you down
Fire walk with mePain shouts you down
Pain shouts you down
Pain shouts you, ohPain shouts you down
Pain shouts you down
Pain shouts you, ohPain shouts you downYouve split and I spit on you
I will kill you
Youve split and I spit on you
I will kill you
