

# One More Time

3LW

Lullabies, butterflies and goodbyes  
Make me cry, oh my  
They all remind me of you, yeah  
In the trees autumn leaves  
Birdies tweet when they look at me  
They sing a song about you, yeah Even the clouds can see it's over  
And they can feel my hurt inside  
And when the sun comes out tomorrow  
Will I feel alright Come back to me, dry my tears for me  
Won't you hold me one more time?  
Take my lonely, be my only  
Come back for me one more time One more time, one more time  
One more time, yeah, yeah  
One more time Teddy bears, rocking chairs  
It's not fair, it's not fair  
To share these treasures with me, yeah  
My reflections shows that I'm alone, on my own  
Waiting by the phone  
But I know you won't call for me, yeah Even the clouds can see it's over  
And they can feel my hurt inside  
And when the sun comes out tomorrow  
Will I feel alright Come back to me, dry my tears for me  
Won't you hold me one more time?  
Take my lonely, be my only  
Come back for me one more time One more time, one more time  
One more time, yeah, yeah  
One more time Even the clouds can see it's over  
And they can feel my hurt inside  
And when the sun comes out tomorrow  
Will I feel alright? Come back to me, dry my tears for me  
Won't you hold me one more time?  
Take my lonely, be my only  
Come back for me one more time Come back to me, dry my tears for me  
Won't you hold me one more time?  
Take my lonely, be my only  
Come back for me one more time One more time, one more time  
One more time, yeah, yeah  
One more time One more time, time time time, time, oh, yeah  
One more time, yeah, one more time
