Shelter

Hayden

Here's what I got written down so far
on my list of what we need.
Some water and batteries
and enough food for weeks.Yeah, come out to our backyard.
Join me underground.
Even though they'll beg us to let them in
we won't.Maybe we'll just let it end,
so that we can start again.And your gonna me so mad at me
for making all this up.
There's nothing really happening out there
and there hasn't been for months.Yeah, I just wanted some time with you
and I just remembered you would.
This world keeps spinning us around
and we're stirred.Maybe we'll just let it end,
so that we can start again.
