Don't Wanna Fall In Love

Jane Child

Ain't no personal thing, boy
But you have got to stay away
Far, far away from my heart, my heart
Don't you know what your kiss is doing
Let me tell it to you from the start, boyI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the end, babyYou've been hanging around, boy
And you have started sinking in
Whoa baby, you're way out of line now
Unaware how this all got started
Let me tell it you one more time, boyI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the end, babyI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the endI learned something about myself
Last night with you I knew
I didn't want nobody else
And you're scaring me to death now babyI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the endI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the endI don't wanna fall in love
Love cuts just like a knife
You make the knife feel good, baby yeah
I'll fight you to the endI don't want to fall in love
Love cuts just like a knife
You make the knife feel good
I'll fight you to the end
