

Ancient Wind

Dangermuffin

Ancient wind
Changin ways
Let me see the seven seas
Cause you were there
When the world was born
And all we knew was all these thorns

Ancient wind
Pull me in
Show me how this all begins

Settin sun
Every day
Always seems to go away
The next mornin
When you get warm
With your light it all takes form

You and me
In the sand
Draw a line of sea vs. Land
Figure out
It all makes sense
And never would we build a fence

Ancient wind
Pull us in
Show us how this all begins
