Atheist Ways

Nunslaughter

You never wondered how witches fly
Hobgoblins chant in the dead of the night
Ogres and fairies read their textbooks of blood
While Christians ponder a vengeful GodAtheist waysMerlin's stones and the magic he's cast
Gigantic cults and the poisons they've passed
Regal watchers Gods divine blood
Zion's scatter for a forty day floodChaste radicals race to confess
Immoral acts and their life's twisted mess
The holy cross or the Pentagram
Blessed peace or eternally damned
