

# Atheist Ways

## Nunslaughter

You never wondered how witches fly  
Hobgoblins chant in the dead of the night  
Ogres and fairies read their textbooks of blood  
While Christians ponder a vengeful God  
Atheist ways  
Merlin's stones and the magic he's cast  
Gigantic cults and the poisons they've passed  
Regal watchers  
Gods divine blood  
Zion's scatter for a forty day flood  
Chaste radicals race to confess  
Immoral acts and their life's twisted mess  
The holy cross or the Pentagram  
Blessed peace or eternally damned
