

The Challenge

Artillery

Fear of tomorrow - we're waiting for the final crash

The lost illusion - there ain't no light for us to seeOur gods commandments - we once forgot and threw away

Humiliating - our lifes on earth will fade awayA hopeless challenge - we're on our knees

Time's getting nearer

We thought we were wise but we cannot survive on this earthWe challenged nature - we made it fall instead of
rise

Our mighty empire - is surely built on sinkin' groundA hopeless challenge - we're on our knees

Time's getting nearer

We thought we were wise but we cannot survive on this earthInnocent dreams turned to nightmare

Palace of glass, turned to dust

Day turned to night, don't you care

Life turned to death, forever lost.
