Coming from You

George Canyon

I cant believe how much I cant help
Believe what you just said
One little whispers making such
Crazy thoughts run through my headIve heard it from somebody else
And Ive said once or twice myself
But it never sounded true, love was just a word
Up until I heard it coming from youSomething about the way youre
Speaking to me, speaks to my soul
I wouldnt want to fight
This powerful feeling taking holdIve been told a thousand times
That Id just know it when its right
Well, I have to say I do, love was just a word
Up until I heard it coming from youIve heard it from somebody else
And Ive said once or twice myself
But it never sounded true, love was just a word
Up until I heard it coming from youOh, love was just a word
Up until I heard it coming from you
