

No Particular Place to Go

Toy Dolls

Ridin' along in my automobile
My baby beside me at the wheel
I stole a kiss at the turn of a mile
My curiosity runnin' wild
Crusin' an' playin' the radio
With no particular place to go
Ridin' along in a mini metro
She said to me she loves me so
She smiled at me and looked so sweet
I thought I was in for a treat
My happy face began to glow
With no particular, no particular
No particular place to go
There's no particular place to go
There's no particular, no particular
No particular place to go
There's no particular place to go
There's no particular, no particular
No particular place
There's no particular place to go
There's no particular, no particular
No particular place to go
There's no particular place to go
There's no particular, no particular
No particular place
Temperature's risin' really quick
Then she says she gets car sick
She said her love for me was true
She jumped in the back and began to spew
Ridin' along an' feeling low
With no particular place to go
There's no particular place to go
There's no particular, no particular
No particular place to go
There's no particular place to go
There's no particular, no particular
No particular, no particular, no
No particular, no particular
No particular, 'ticular place to go
