In The Past

Tellusalie

With the conflict on the outside and the fear within
It's hard to find the courage to begin again
I'm one of the downcast and I don't want this to last
It's in the past
It's in the past
It's in the past
It's in the past

There's comfort in the knowledge I have reconciled
Keeping count of the briefs that I have filed
I'm one of the downcast and I don't want this to last
It's in the past
It's in the past
It's in the past
It's in the past
