

Save Me

Orthodox Celts

Shapes Disappear
Erased By The Darkened Welcome Of The Night
Behind The Clouds
The Moon Set Sail Across The Flaming StarsThe Night Is So Quiet
I Still Wait Your Steps To Hear And Melt The Snow
The Rage Of The Wind
Feeds My Hunger While I'm Dreamin' AloneSave Me Girl
Give Me Shelter In Your Arms
Save Me Girl
And Blow Away My Harms
Save Me Girl
Arise Me From The Dead TonightI'm Burning Down
I Saw Your Smile And Lost Myself In You
But I Don't Mind
Whole Starry Skies I Found In Your EyesI Can't Control
Myself I Don't Belong To Me No More
Since You Allowed Me
To See My Reflection In The Mirror I LoveSave Me Girl
Give Me Shelter In Your Arms
Save Me Girl
And Blow Away My Harms
Save Me Girl
Arise Me From The Dead Tonight
