

# All for One

## Five for Fighting

Blood on the Ground  
Sun turning red  
Head over heels  
Over our heads  
Trouble will rise  
Tears will be shed  
Wherever we go  
Whatever comes next We'll always  
We'll always be  
One for all and all for one Bridges we've crossed  
Battles we've had  
Love we have lost  
Dreams we have shared We'll always  
We'll always be  
One for all and all for one All for one My Brother  
My Self  
My Savior  
My Friend  
The fire we are  
The fire will end  
If I should fall  
Or you don't make it back  
Together we'll rise  
Together we'll stand We'll always  
We'll always be  
One for all and all for one We'll always  
We'll always be  
One for all and all for one  
One for all and all for one All for one
