Look Out Below

Closure

All my life I've denied ever knowing what it's like
You came around, you shook my ground
Now I'm searching for a drug to come down
You're where I thought I'd never go
I can't believe I didLook out below, I'm letting go
Look out below, I'm falling completely
I lost control, I let it go
Now I can see so clearly around me
You're everything I needDeep inside is where you've been
Ever since you wandered in
And now I shine and get so high
On all the things I used to deny
Now I can never let you go
I guess I'll just let you winLook out below, I'm letting go
Look out below, I'm falling completely
I lost control, I let it go
Now I can see so clearly around me
You're everything I needTo find all of the things I used to deny
And I know that the closer you bring me
Fear tries to keep me alone
Look out belowLook out below, I'm letting go
Look out below, I'm falling completely
I lost control, I let it go
Now I can see so clearly around me
You're everything I needYou're everything I need
You're everything I need
You're everything I need
