

# Way To The Future

[Katie Herzig](#)

She could be, easy to find you see  
She writes her songs, only for you to sing  
She digs the words, out of the sky  
She leaves them there, for you to find  
The way that you love dear, the fate of the world you leave behind  
A way to the future, making a moment built to last  
You want to love well, now's your chance  
You hear the beat, over the radio

You see the sea, satellite picture show  
You take the words, out the sky  
She left them there, for you to find  
The way that you love dear, the fate of the world you leave behind  
A way to the future, making a moment built to last  
You want to love well, now's your chance  
The way that you love dear, the fate of the world you leave behind  
A way to the future, making a moment built to last  
You want to love well, now's your chance
