Put That On Something

Kurupt

When the acid rain falls, your frame falls
I'll make your chains spark the lead, the chainsaws
I'm not captivated and I'm not captive
Free as a bird to fly out on Perv
Ain't here for no frontin' just to say a little somethin'
Rack up the gauge, spray a lil' something'
My momma always told me, rght before, she'd hold me
"Don't tell me, don't say it, just show me"
Over and over again it sunk in slowly
I'm a bomb shell bomb-o-rama, high times is proper
I'm eqipped with 4 clips and all the accessories
For all them Sesame Street G's that pestin' me
Not servin' neccessaties in the battle, I'm raw Galactica, mother
Light 'em up like battle star, Galactica, mother
I'ma show you how I do it over here, over here
If you show me how you do it over there, over there
I'm 'bout to get a meal ticket, put that on something
I'm about to get payed, put that on something
I put that on my momma, put that on something
That's on everything, nigga, put that on something
I'm about to get a meal ticket, put that on something
I'm about to get payed, put that on something
I put that on my momma, put that on something
That's on everything, nigga, put that on something
Put that on something, put that on something
Nigga, put that on something
I put that on my shoes and socks, my moms and my pops
My bomb drops, my 5 glocks, and my knots
How you gonna tell me what I'm gonna do?
When I'm not, when I'm hot is when you can consider it got
In one false move, is when the vaults move
Cracked in the middle like eggs, spread on the table
Your pulse halts, boy, get your game together
This ain't to die together, this ain't this ain't together
Now ain't this somethin', a youngster just swerved up
The homie just swerved up, hold up, I'ma be goin' tonight
I ran into the homies, it's on tonight
I gotta throw on my stars and my khakis on tonight
I'ma show you how I do it over here, over here

If you show me how you do it over there, what?
I'm 'bout to get a meal ticket, put that on something
I'm about to get payed, put that on something
I put that on my momma, put that on something
That's on everything, put that on something
I'm about to get a meal ticket, put that on something
I'm about to get payed, put that on something
I put that on my momma, put that on something
That's on everything, put that on something
Yeah, put that on something
That's on the Pound, put that on something
That's from the hill, nigga, put that on something
That's from the mountain, put that on something
Fool, put that on something
I know a few of y'all could the time to spit off after bustin' lead off
Knockin' a nigga head off, fa sho, hard core, fa sho
Predator, mentor, entrepenuer, radical and raw assasin, maskin'
Caskets and drastics tactics, quick to flip 'em like bricks
Put a little soul in your strive, home boy
Do you ever think about tryin' to ride, home boy
Caticalism, reactions leads to another food up
Fool across the across the bridge with 6 kids, get clips
And everything 'quipped with that
Like Daz said, "Retaliation, revenge and getback"
Like Daz said, "If you ever need me homie, you know what to do"
If I never said it before, the same applies for you, this one's for you
I'ma show you how I do it over here, over here
Now, y'all show me how you do it over there, over there
I ride with the West Coast, put that on something
I ride with the East Coast, put that on something
I put that on my momma, put that on something
That's on everything, put that on something
I ride with up north, put that on something
I ride with the dirty south, put that on something
I put that on my momma, yeah, put that on something
That's on everything, fool, put that on something
Yeah, nigga, put that on something, put that on something
I put that on the hood, put that on something
I put that on my kids, put that on something
I put that on my life, put that on something
I put that on everything, put that on something
I put that on my grandkids, put that on something
I put that on everything, put that on something
I put that on my life, put that on something
Put that on something, put that on something

Is that right, oh really, put that on something then
Put that on something
Put that on something you love, something that you care about
Something that you would never give up
Put that on something, put that on something
Put that on something, you know what I mean?
Put that on something, homie
Put that on something
Put that on something
Put that on something
...
