

Make A Decision

The Early November

A man stays in his house.
he says no, I'm not leaving,
you'll never scare me out.
not even if you throw your worst.
I'll throw it down and take it like a champion.
so here's your chance right now.
come on and make me foolish.
[Chorus:]run while you can.
forget your work.
learn to live.
fall to your knees.

forget your love.
let it fade away.
The world will slowly see that life can be so easy.
without your fancy plates we never eat off.
stop me when I've said enough.
we create our own prison.
we're locking people up for needing money.
[Chorus x3]
