

Falling

Live on Release

When I met you you were eating ice cream
When we first met you fell upon your face
And now I can't get you outta my head
No I, I can't get you out of me

[CHORUS]

I'm falling and I can't get up now
I'm falling and I realize
That you're the one for me
And you have to be
Falling, falling for me too

This feeling is screwing me up
This feeling, I don't want it ever to stop
And now I can't get you outta my head
No I, I can't get you out of me

[CHORUS] x4
