Next to That Woman

Kix Brooks

When I was young my buddies used to call me Jesse James
Living with the hammer down,
Just trying to beat the train
I'd jump them tracks, don't look back
Leave the law behind
A finger out the window while that police sirens whinesCrazy's something that I know
Hell I been to Mexico
Juarez ain't got nothing on that woman
Fast ain't nothing new to me
I've been to Bristol Tennessee
Them boys are standing still
Next to that womanShe's smiling like it's Sunday and she's singing in the choir
Them curves of hers are smokin'
And she's trying to start a fire
Yeah, the way she's looking at me I know I should run and hide
Instead I'm thinking hello Bonnie, you can call me ClydeCrazy's something that I know
Hell I been to Mexico
Juarez ain't got nothing on that woman
Fast ain't nothing new to me
I've been to Bristol Tennessee
Them boys are standing still
Next to that womanYeah, when the good lord made her, man, he did it mighty well
If he's got something better
Must have kept it for himself
And I'd walk through hell
To be next to that womanFreight train never hit me cause I made it 'cross the rails
And I never went to prison, cause my brother made my bail
How she's gonna get me, well I guess it just depends
I haven't seen this movie but I know the way it endsCrazy's something that I know
Hell I been to Mexico
Juarez ain't got nothing on that woman
Fast ain't nothing new to me
I've been to Bristol Tennessee
Them boys are standing still
Next to that womanCrazy's something that I know
Hell I been to Mexico
Juarez ain't got nothing on that woman
Fast ain't nothing new to me
I've been to Bristol Tennessee

Them boys are standing still
Next to that woman
