

Vote For Love

Tiamat

We've been soaked in acid
Always praised the downfall
The sound of cadent wings
It's a wonder we're standing tallBut in the truth of the morning glory
And the fear in our wishing well
We're on to another storyIt's about time
We all get out and vote for loveWe are white zombies
Chained to our own demise
Decades of sleepwalking
No light's shining in out eyesWe've painted all doors bible black
Wir haben niemals kampflos aufgegeben
If there's light we'll claim it backTime to clime it back
