

Spin The Globe

Polyphonic the Verbose

Flick on the light switch
It's your love light
Why what a big hand you have
Stick out your thumb-a-yeah-yeah

Spin spin spin the globe and
Put your finger on it
Spin spin spin the globe and
Point to where it stops

Now read the Avald book for your amazing
Forget the fate above you head
For you don't want to know what will prevail!

Spin spin spin the globe and
Put your finger on it
Spin spin spin the globe and
Point to where it stops

Now take a trip somewhere forget your fear
Support some little pigmy kids
Go home and forget that cheer, ah!

Spin spin spin the globe and
Put your finger on it
Spin spin spin the globe and
Point to where it stops

Spin spin spin the globe and
Put your finger on it
Spin spin spin the globe and
Point to where it stops

Fly while the waiting miles are sufficial
Who'd be right and who'd be wrong
Do you just sit and play along boy, do you know?

Spin spin spin the globe and
Put your finger on it
Spin spin spin the globe and

Point to where it stops

Spin

Say hope bop we de bop do dop
Reggae beat sha hopa hopa hopa hopa
Hopa hopa hopa
