Bonehouse

Entombed

Can't find a real answer It's all the same But when it all comes around I guess it's kinda lame I can hear you screaming When it gets into your vein Your high is repulsive So full of painMy soul's circumcision Breed to give head Liquid house of raindrops Turn out to be dead Returning to soma Equinox of grief My next incarnation in BonehouseAnd it's about to crack In this house of bones Now heads start rolling Instead of stones Oblivions wounds Dumb fuck despair If I can't suck life deeper How could I careGet stoned Get dead Inside my flesh The house of bones
