

Take Me To Your Heart

Bananarama

Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on
I must be dreaming
And my heart can't fight the feeling
'Cos when I saw you
I just knew what I'm missing
So how much time will it take
'Til we get to that day
So come on now
Heaven could be waiting
Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on
Baby, when you hold me
You really got me going
Oh, what you do
You really move me baby
So how much time will it take
'Til we get to that day
So come on now

Heaven could be waiting
Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on
So how much time will it take
'Til we get to that day
So come on now
Heaven could be waiting
Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you

Take me to your heart
Take me to your heart, come on
Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
Take me to your heart
Take me to your heart, come on
Take me to your heart now, baby
Take me to your heart, come on, come on
I can't stop thinking about you
