

# Giant

## Gentle Giant

The birth of a realization  
The rise of a high expectationEmerging successful, defiant  
Together the parts make a giantSee the world in the palm of his hand  
Striding steps that will cover the land  
He is coming, hear him coming  
Are you ready for his being?See the giant  
Feel the giant  
Touch the giant  
Hear the giantEmerging successful, defiant  
Together the parts make a giantThe birth of a realization  
The rise of a high expectation
