

# Wings for Marie (Part 1)

## Tool

You believed  
You believed in movements none could see  
You believed in me A passionate spirit  
Uncompromise  
Boundless and open  
A light in your eyes  
Then immobilized Broken, broken  
Fell at the hands of those movements I wouldn't see  
Yet, it was you who prayed for me  
So, what have I done to be a son to an angel  
What have I done to be worthy Daylight dims leaving cold fluorescents  
Difficult to see you in this light  
Please forgive this selfish question, but  
What am I to say to all these ghouls tonight  
She never told a lie  
Well might've told a lie  
But never lived one  
Didn't have a life  
Didn't have a life  
But surely saved one  
See? I'm alright, now it's time for us to let you go
