You Need Love

Candye Kane

When you love somebody that means a lot
And so you give the best of what you`ve got
It`s a reason for living to have someone
Without a love in your life you can`t go on

You need love I need love
When you`re tired and worn out she`ll run to you
And calm your restlessness and comfort you

You need love I need love
No wonder that I always say
I can`t live another day without you
I tell my friends I`m feeling fine
Then they know that I`m not lying about you

All your life you`ll know that your trust was right
When you`re holding her close to you at night

You need love I need love
