

Life Prowler

No Age

One time is all I need
To know my job's complete
And when I reach into
Myself, my past comes trueOne time is all I need
To know my job's complete
And when I reach into
Myself, my past comes trueMy life, my life, my life, my life
My life, my life, my life, my life
My life, my life, my life, my life
My life, my life, my life, my lifeOne time is all I need
To know my job's complete
And when I reach into
Myself, myself comes trueMy life, my life, my life, my life
My life, my life, my life, my life
My life, my life, my life, my life
My life, my life, my life, my lifeI don't got time
I don't got nothing left for you
I don't got time
I don't got nothing left for you
