Through the Blue

Evan & Jaron

I plan to take every moment that you are
And hang them on the wall
I can't explain what you did for me
But I can frame it allAnd when I say goodnight
I'll find you there
Starring at me with those eyes
And walking me to the bedroomAnd oh, I wish I could see you back
I hope you're fine wherever you are
And know that I think about you all the timeI smile through the blue for you
Even though it's hard to stay awake some days
And baby I smile sometimes through the blue for you
Even though I know you're a million miles awayI had to leave work again early today
Everyone thinks I'm lazy
I wanted to be home when you got there
I must be going crazy'Cause when I say goodnight
I'll find you there
Starring at me with those eyes
And walking me to the bedroomAnd oh, I wish I could see you back
I hope you're fine wherever you are
That you're with me all the timeI smile through the blue for you
Even though it's hard to stay awake some days
Baby I smile sometimes through the blue for you
Even though I know you're a million miles awaySometimes I wake up to the sweet sounds of the earth
I wonder, is that you
Sometimes in the morning when I order my coffee
I order one for youBaby I smile through the blue for you
Even though it's hard to stay awake some days
Baby I smile through the blue for you
Even though I know you're a million miles away
And I'll never understand why you went away
