

# Heaven & Hotrods

## Stone Temple Pilots

You can get it if you really want it  
But you're better off just leave it alone  
You won't forget it if you ever had it  
So you're better off just stayin' at homeShe walked in with her alligator sister  
Tryin' to get to Heaven on Sunday  
You'll never get it if you never had it  
So you're better off just leave it aloneAnd the dogs came in just to see her smile  
And the dogs came in just to see her smile  
Just to see her smileYou don't get it, no, you won't forget  
So you're better off just leave it alone  
If you don't stop thinkin', soon you will be drinkin'  
And you're better off just stayin' at homeShe walked in with her alligator sister  
Tryin' to get to heaven on Sunday  
You'll never get it if you never had it  
So you're better off just leave it aloneAnd the dogs came in just to see her smile  
And the dogs came in just to see her smile  
Just to see her smileShe walked in with her alligator sister  
Tryin' to get to Heaven on Sunday  
You'll never get it if you never had it  
So you're better off just leave it aloneComing down, mom I'm still healing  
Coming down, oh, I'm still breathing  
Coming downYou can get it if you really want it  
But you're better off just leave it alone  
You won't forget it if you ever had it  
So you're better off just stayin' at homeShe walked in with her alligator sister  
Tryin' to get to Heaven on Sunday  
You'll never get it if you never had it  
So you're better off just leave it alone
