Whisper

Curbside

(Chorus)
I wanna whisper
I wanna whisper
I got something to say to you
I wanna whisper in your ear
(Verse)
Today seems like a perfect day
To say what I've been wanting to say
Don't worry baby it's ok
Everything is just great
(Verse)
I ain't ashamed to say how I feel
When it comes down to you
So many ways to comunicate
For me it's only one way
(Pre-Chorus)
I could send it in a letter
I could text your phone
Hit you up on twitter 'cause you stay logged on
Even fly a plane right there in the sky
But it's better girl if I
(Chorus)
I wanna whisper
I wanna whisper
I got something to say to you
I wanna whisper in your ear
(Verse)
Now it might be naughty to focus on your body

But girl I'm really feeling you
A lot of guys be jocking and they won't stop it
And they don't need to lie I got you my baby
(Verse)
See with you baby
I need to touch and feel you baby
I put my arms around you
To hold your body glued
(Pre-Chorus)
I could send it in a letter

I could text your phone
Hit you up on twitter 'cause you stay logged on
Even fly a plane right there in the sky
Girl but it's better if I
(Chorus) x2
I wanna whisper
I wanna whisper
I got something to say to you
I wanna whisper in your ear
Wanna tell you babe
Oh ye girl
Coming in with me tonight ye
Come with me right now, right now my baby
Say the word yeeeee
(Chorus)
I wanna whisper
I wanna whisper
I got something to say to you
I wanna whisper in your ear
