

# WWIII

## Freeway

I declare war on the world  
War in outer space  
I declare war in a nutshell  
War all over the place I declare war on every government  
War against all odds  
I declare war on your inner sanctum  
On your blood thirsty gods I declare war on the axis of morons  
All out war on complacent consent  
I declare war on the war against drugs  
Rape and Slaughter of the innocent War on big brother  
Warmongers and profiteers  
War on your dogma dubya  
Armageddon's engineers War in a heartbeat  
I declare war on so-called civilization  
World trade globalization  
Organized desinformation War on ambassadors of pretense  
War on MTV and CNN  
Macdonald's walt disney and bethlehem  
On christina britney and eminem I declare war on the world of anti-choice  
On violent unilaterality  
On the amassment of murderous high-tech toys  
And all crimes against humanity War on the moral majority  
On corporate.com imperialism  
On mindlessly bumbling stupidity  
And police-state terrorism Worldwar three - be all that you can be
