

# Billy

## Sally Seltmann

He left me. Understood  
He needed me. Oh, I thought, so good  
But when he left my side  
For that motorcycle ride  
I said to him while starring in his eyes()

I say I want you  
To feel like a man  
I need you  
To feel like a man

A man  
Whooooo, ooooo  
Whooooo, ooooo  
Billy, Billy,  
Billy, oh, Billy  
( )

You always follow through  
With your dangerous pursuits  
With opened eyes I always say to you()

I say I want you  
To feel like a man  
I need you  
To feel like a man

A man  
Whooooo, ooooo  
Whooooo, ooooo  
Billy, Billy,  
Billy, oh, Billy  
( )

Danger, devotion, freedom and fear  
So closely entwined for so many years  
Billy, laying in the dark  
Billy, death do us part  
Why did I let you ride  
Through the wilderness of night?  
I'm haunted by the words I used to say()

I'd say I want you  
To feel like a man  
I need you  
To feel like a man

A man  
Whooooo, ooooo  
Whooooo, ooooo  
Billy, Billy,  
Billy, oh, Billy
