

Shine On

Mario Biondi

No need to let over the rainbow
cause you ve got sun
in your soul.
And when you smile
it's sunny all over
as the clouds go rolling onHey, i know it seems some times
despites it's hard to find
when trouble keeps you to the shadows
I really have to say
that troubles seem to fade
when i'm in your arms my darling
We shine so much for us to see, it's true
and nothing really means much more to me than you
so shine on, darling
shine on.I just had to come and see you
just in case you didn't know
that i tell you how much i really feel you
my last chance before i goHey, i know it seems some times
despites it's hard to find
when trouble keeps you to the shadows
I really have to say
that trouble seems to fade
when i'm in your arms my darling
We shine so much of us to see, it's true
and nothing really means much more to me than you
so shine on, darling
shine on.
Shine on, darling
shine on.
