It's A Game

James Cheetham

Over and over she's wasted time on people like you
She's the trusting kind
Over and over those words ignite
How you're gonna help her make it
How you're gonna change her life
You know everything about her
But it's just to control her
It's just to hold her[Chorus:]
It's a game
That you're playing
She believes every word you say is true
It's a shame
The dues she's paying
You won't stop 'til she gives it all to you
She gives it all to you
It's a gameYou only give her all she needs
But it's not what she wants
Still you make her believe
You only tell her what she needs to hear
When you make it sound like love
It's motivated all by fear
You know everything about her
But it's just to control her
It's just to hold her[Chorus]You're promising promises going nowhere
She's going nowhere
